Get in the car to drive
I've got a long way to go
I need good tunes to occupy
So I try the radio
The voices come from fools
With nothing better to say
It's the same Super Pop hits
Always overplayed

What are you listening for, what are you listening for
What are you listening for, what are you listening for

So I head down to the record store
To find something real
But they don't sell real records anymore
Unless it's got mass appeal
So they say it's music
Dressed with sex to sell
It's just radio porn
Just radio hell

What are you listening for, what are you listening for
What are you listening for, what are you listening for

Listen to what the DJ says, it's bad radio
Listen to what the DJ plays, it's bad radio

So you take what they give
Cause you don't know what's shit
Force fed into your ears
And you just swallow it

What are you listening for, what are you listening for
What are you listening for, what are you listening for
