Gotta get up. Gotta get out. Gotta get more.
Gotta wake up. Gotta walk out of this door.
Gotta see things how they could be not as they are
Gotta look in to look out to get far

Gotta get past all the past gotta move on
Gotta fess up. Gotta admit. Gotta forgive
Gotta expose. Gotta let go. Gotta release.
Gotta learn more. Gotta want more. Gotta believe.

Chorus:

Got to get in the car and drive to some place
Where the land and the sky meet on the horizon
Got to feel the water splashing from each sea
And the wind behind my back! gotta feel free

Gotta get right. Gotta get clean. Gotta get clear.
Gotta find light in the dark. Gotta face fear.
Gotta get lost in the sound of the song.
Gotta because it's the drug that sets me free.

Chorus
