How long does she carry on  
No clue to what she is taught everyday  
Led Astray

How long does he let this go on  
Did what was right but he feels he is wrong  
It's a shame How she's raised How she's raised

How much she wish he would call  
Deep down she longs to belong just the same  
Just the same Just the same

All that we've done reflects in our young  
What they become carries on  
All that we've done to our daughters and sons  
It can't be undone. It carries on, it carries on

Holds on tries to be strong  
She's left to be all alone in this state  
So afraid  
Last chance before she is gone  
Soon she'll be just like her mom  
Led Astray. Led Astray
