I'm the metal, temptation and rage, I'm your pain
Bombs away, a rattle and a shake, I slide through your
veins

First taste is free, what it'll be
I'll give you want, give you what you need

The devil is rock'n'roll, the devil is rock'n'roll baby
Someone gonna take my soul, yeah

Let's pray, the fire is sane
Will burn you alive
Like an ill disease, brought to ,
Bittersweet
First taste is free, what it'll be
I'll give you want, give you what you need

The devil is rock'n'roll, the devil is rock'n'roll baby
Someone gonna take my soul, yeah

And these , rock as we ,
That once was lost now I'm going, down
The devil is rock'n'roll, we gonna go insane
The devil is rock'n'roll ,
See the devil is rock'n'roll, , is what we like
The devil is rock'n'roll, yeah, yeah.
