In the stillness of a cold December night
Hallelujah
out of darkness there came forth a light
Hallelujah
to a world in such blind need of sight
Hallelujah
Hallelujah

To a birthplace of a lowly humble mean
Hallelujah
come the ages and angels between

Hallelujah
to believe yet to ne'er even seen
Hallelujah
Hallelujah

Sky full of stars
on a heavenly night
when came the birth of light

to believe yet to ne'er even seen
Hallelujah
Hallelujah.
