These are the best of times,
These are the worst of times, times
When you are angry pair
Your past doesn't matter now
No sense of losing ground
In the race to find yourself

CHORUS:

I'm building up by breaking down
Turning myself inside out
It's always dark it's before the dawn
But when daylight breaks your love who I'd become

Drudging gravity should not be everything
That will live in ..
But that's just how it goes you're that highes and lows
And this will .. it keeps spinnin on end on

[Chorus:]

Sometimes your reflection isn't what you want to see
It can open your eyes to your disguise
And sometimes the sun isn't what you need
Sometimes you gotta feel the rain
Just feel the rain

[Chorus:]

(2 x)
Shine on (x3)
Baby shine on, shine on

I'm alright
I am i am
