I believe there will come a day  
When will find a way for you and me  
I believe that will hold the key  
That will take the pain away  
I believe that you ..  
And the possibility of a change  
I believe that love and charity and the world feel the  
same

And will lower the rivers  
And better ..  
The broken will hurt no more  
And will celebrate hopes ..

The race will be over  
For will have wonder cure  
The race will be over  
For will have wonder ..

I believe there will come a day  
That will find a way for you and me  
I believe that will hold the key  
That will take the pain away  
We will take the pain away.
