Who was the one that stood beside you through the war
of your life
Who stood defiant in the face of your enemy
Who was the one you could confide in
when your adversaries made you run and hide
There's no messiah out there waiting to deliver you
now
You've lost the war and have surrendered your sanity
What was before has now been scattered
from the heavy devastation left behind

You made it happen again
Threw your cover away
Built battlements to stand for all time

You've waged your war of lies
Discarded your disguise

I was the one you said you could never a part of your
life
I was the one who had a moment of clarity
Only a son, could stay devoted to a fabricator living
their own lies
The ones who loved you can no longer be a part of you
now
You're very deft at trying to garner their sympathy

You made it happen again
Threw your honor away
You may never learn until you're denied

You've waged your war of lies
Discarded your disguise
Seen through damnations eyes
You blame me for your lies

[Bridge]

You don't get it
You won't let it
You won't ever admit your fucking lie

You don't get it
I won't let it
I won't believe this time

[Chorus]

[Outro]
