Check this out man

Yeah, f'real pimpin, it's real shit ya dig

I'm chasin my muh'fuckin dream my nigga

and I don't give a fuck who don't like

Cause what you eat don't make me shit

I was, born and raised in F-L-A

Orange County, Florida; the Gunshine State

See I was only 12, when momma left me on my own

At age 15, I began sellin dope

I must admit I got enticed by the white

I caught a couple dope charges, almost fucked up my
life

Your boy was reckless, I was buckwild with no
supervision

Dancin with the devil, doin home invasions

I was a hot mess, day and night not doin right

I was fucked up, but I always kept God in sight

And even though I was doin Satan's chores

Aunts in Watts never stopped callin on the Lord

(PREACH)

He must have heard the sincerity in my voice (that's
right)

Cause he got my out the hood, by way of sports

Then I relapsed and went back to the block of course

Done had a change of heart and started writin hooks
and bars

My underground album made me a local star

And I know these haters would love to see this album
flop

So do you, cause I'm damn sure gon' do me

Ain't SHIT gon' stop Grandaddy Souf from chasin my
dream...
