Like a tiny seed firmly in the soil  
Nurtured with a love I think so rare  
Given room to breathe, given time to see  
It's now so clear to me  
You were there, you were there

When I was just a flower afraid out in the forest  
Hiding from the shadows all alone  
I knew you'd be along, my faith in you was strong  
Like our favourite song  
To lead me home, you led me home

And with each changing season  
I grow a little stronger  
Rising up to touch the open sky  
And if I gave you a reason  
not to hold me any longer  
You gave me a thousand reasons why  
You are my steady oak standing tall and strong  
Protecting me with everything you have  
And I know deep inside  
I would not have survived  
Without you by my side  
Oh and I .... I love you dad
