Needed out I finally hit the wall
Always thought something would break my fall
Yeah I'll never think that way again
Started when I dropped out of school
Everyone told me not to be a fool
Sometimes you've got to break to learn to bend
It seems like everythings gone wrong
You change the station there's the same old song

You tried to stand and landed on your back again
There's things in life from which you just can't hide
Suppress your feelings and act still alive
Figured out I'll never turn my back again
Yeah you know it's coming 'round again
All I can say you aint the only one
Yeah I'll never be that way again
