(Paul Foglino)

I used to live in the dark
I thought I didn't mind
I could find my way around
Cause I got used to being blind
I didn't bother to put up a fight
Cause I didn't think I would ever get it right
Then I saw the light

I can see
This is the way it's supposed to be
I can see
And I'm looking at you looking back at me
I can see

I used to lie to myself
And I believed every word I said
I took my own advice
I was easily misled
I gave up trying a long time ago
'Til you came around like a medicine show
Now I know

CHORUS

Let the good times roll
I never thought that I could
Come on and roll with me now
Don't know how long I'm gonna feel this good
I never ever thought I would understand
How it feels to be a happy man
Now I can

CHORUS
