Visit "[Village Idiots](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I get so bored of the same old routine  
And I do it and I do it and I do it again  
People think Im so obscene and  
That's because they don't know me at all  
Not this time you wont bring me down  
Not this time you will not bring me down  
Cant stand people staring at me  
So I make a stupid face  
And I start staring at them  
People think that Im a freak and  
That's because they don't know me at all

Not this time you wont bring me down  
Not this time you will not bring me down  
Superficial people is part of humanity  
But I try real hard to sperate me from them  
Conversive inconsistancies  
Did you think you were fooling me  
Oh no not this time you wont bring me down  
Not this time you will not bring me down  
You wont bring me down
