The Delta Riggs
"America"

Verse I:
All of the people in the same boat, they know that
something don't feel right.
And she's been creepin' up on my mind, and she
dreams of America, America.
I heard you been to California, pretty boys well they
been doin' nothin' for ya.
Oh, and we've been sleeping in the same nest.
You give me something that I never had.

Chorus I:
If it makes me feel right well, if it takes me all night, oh.
I'm gonna take her from another lover, I'm gonna take
her from another lover.
She dreams of America, America. Sweet dreams of
America, America.

Verse II:
If there was ever any doubt left, then it was conquered
by the street light.
And if he lays another hand on your, I'm gonna make
him wish he never did.

Bridge I:
And now I'm losing control, I've gotta let her know
It's getting bigger, and it's bigger than us, bigger than
what I have been

Chorus II:
If it makes me feel right well, if it takes me all night, oh.
I'm gonna take her from another lover, I'm gonna take
her from another lover.
She dreams of America, America. Sweet dreams of
America, America.
She dreams of America, America. Sweet dreams of
America, America.

Bridge II:
And now I'm losing control, I've gotta let her know.
And now I'm losing control.
And now I'm losing control, oh, gotta let her...

And now I'm losing it.
And now I'm losing it.
And now I'm losing it.

Chorus III:
If it makes me feel right well, if it takes me all night, oh.
I'm gonna take her from another lover, I'm gonna take her from another lover.
She dreams of America, America. Sweet dreams of America, America.
She dreams of America, America. Sweet dreams of America, America.
America, America.
America, America.
America, America.
America, America.
