(Tom Meltzer)

Some days you wake up thinking that the end could be  
in sight  
Well you know it might  
Some days you think you could be someone and you  
know  
You could be right  
If you've got faith in something bigger  
Some people, when they wake up they just can't get out  
of bed  
They don't have the head  
That tells them what is best or worst or says  
"Try this instead"  
That says to have faith in something bigger  
Something behind you, you may not even know it's  
there  
But it pushes you on

Something that tells you you're not swatting at the air  
When you wonder are we really all alone  
My girlfriend thinks I'm crazy 'cause I think about these  
things  
First thing in the morning  
She tries to wake me while I wonder if you even heard a  
warning  
Before you lost your faith in something bigger  
Something behind you, you may not even know it's  
there  
But it pushes you on  
Something that tells you you're not swatting at the air  
When you wonder are we really all alone
