"Hit The Road"

Visit "[Hit The Road](#)" on MotoLyrics.com

This could be our only chance
To throw ourselves over the fence
Tired of all the things being the same

Getting up before the sun
Tomorrow this will all be gone
Tired of all the people still the same

No matter what today will bring
We're gonna hit the road tonight
Not gonna turn around for anything
We're gonna hit the road tonight

Drive away into the light
Doing what we've never tried
Never going back from where we came

Now it's time for us to say

For us to choose which price to pay
Whatever way you put yourself to blame

No matter what today will bring
We're gonna hit the road tonight
Not gonna turn around for anything
We're gonna hit the road tonight

This could be our only chance
It's time that we are heading for the same

So follow us into the light
Together we will make this right
Never going back from where we came

No matter what today will bring
We're gonna hit the road tonight
Not gonna turn around for anything
We're gonna hit the road tonight
