Always when you're next to me
I feel something new
The lovely things you text to me
I can't believe it's you

Are you leaving me forever?
After the great time that we've spent
Or will we walk away together
'Cause it's way too soon to end

You were with me yesterday
And it felt like it used to
When I thought we could settle down
It was all too good to be true

Are you leaving me forever?
After the great time that we've spent
Or will we walk away together
'Cause it's way too soon to end

But I can't wait no longer
All I want is something more
And when I feel we're stronger

You walk away and close the door

Many times you struggled
And many times you cried
But you were not the only one
Who was really hurt inside

Are you leaving me forever?
After the great time that we've spent
Or will we walk away together
'Cause it's way too soon to end

But I can't wait no longer
All I want is something more
And when I feel we're stronger
You walk away and close the door

I wanna know, I wanna know, I wanna know
I wanna know if you are gonna let me go

But I can't wait no longer
All I want is something more
And when I feel we're stronger
You walk away and close the door
