The arrow struck my heart again. I picked a rose and
bled misery away.

I stepped into the light just to see a glimpse of you.
It feels like I'm in a movie, as the orchestra plays you
in.

Slow motion when you flip your hair. That shine in your
eyes, it melts me.

I wish I could say this all to you, but my heart jumps in
my throat when you look my way.
My spine crawls out of my back. There's so much I wish
I could say but I'm afraid.

[chorus]

Take this rose and stop the bleeding. My broken heart
is on my sleeve.

And I don't wanna live in regret and let you get away.

Take this rose and stop the bleeding. My broken heart
is on my sleeve.

You can make it all better. All it needs is just one kiss.
I wish I could reach out and your hand would find it's
way to mine.

Touch my lips and soothe my wounds. Remove this
cross I've carried so long.

You cry and wish there was someone for you.

I wish I could tell you.

[chorus]

Take this rose and stop the bleeding. My broken heart
is on my sleeve.

And I don't wanna live in regret and let you get away.

Take this rose and stop the bleeding. My broken heart
is on my sleeve.

You can make it all better. All it needs is just one kiss.

Never say you don't look pretty. Whoever told you that
lie is jealous of you.
