Your on a roll again my friend
And it's not thge first time
Gonna wont again and it wont be the last
Youve got to stick to your guns
You gotta be stronger
Take every chance that comes along
You don't want this one to get away

Cos if it all comes crashing down
I will be there to build it up somehow
From the roof down to the floor
You know I'll make it stronger than it was before

If the task is bigger than you
You know I'll be there to help you see it through
I'll use bricks not stick or straw
I will make it stronger than it was before
And if you come huffing and puffing around
I will help you blow this to the ground

And as it all comes crashing down
I will be there to build it up somehow
From the roof down to the floor
You know I'll make it stronger than it was before

And as it all comes crashing down
I will be there to build it up somehow
From the roof down to the floor
You know I'll make it stronger than it was before

And I will build your world of bricks
And you wont have to fear for none of this
Your worries that you carry all the time
You and me are gonna be just fine

Yeh you and me are gonna be just fine
