Tonight I've been kissed by an angel
And this...I let my heart down
I look in your beautiful eyes, you just start to cry
Kissing your arm, all through the night
Girl I'll never wanna let you go

If I die tonight I wanna be in your arms
so gone off the love we made
They say that nothing lasts forever, oh baby
Let's make it last forever
Just give me your heart and I'll give mine
I wanna hold you to the end of time
Gonna love you forever, forever, forever, forever,
forever

Can't you see the love we're making is so special
I'll be a fool if I ever broke your heart
For a magical night holding you tight, no baby, don't go
Let's just stay here to the end of times
Gonna love you for the rest of my life

If I die tonight I wanna be in your arms
so gone off the love we made
They say that nothing lasts forever, oh baby
Let's make it last forever
Just give me your heart and I'll give mine
I wanna hold you to the end of time
Gonna love you forever, forever, forever, forever,
forever

So if I die, if I die tonight I wanna be in your arms
so gone off the love we made
They say that nothing lasts forever, oh baby
Let's make it last forever
Just give me your heart and I'll give mine
I wanna hold you to the end of time
Gonna love you forever, forever, forever, forever,
forever.
