I wish it was a dream
just all a dead dream
a lifeless swim
through a haunted stream

Don't wanna watch myself
die in front of my lonely eyes
so I shut them tight
and I'm lost within

Fearless pain is watching me
sending me to the burning sea
It'll never die, it'll never seize
only I can set me free
Try to find your way back home
In your soul I'll always roam
I'm lost within
We got to fight
and always hold together
We got to fight
and bring their walls down
We got to fight
and always hold together
we got to fight
despite their wrongs and their rights
