Call another hand but tables are turned  
you know its all a gamble  
man, its crash and burn  
Go easy on the liquor  
keep you head on the game  
if you're all out of luck  
well.. you've got yourself to blame

Throw away your chances like cigarettes  
spinnin on the ball of life's roulette  
Don't apologize if you don't feel alive  
don't .. don't

I don't care I'm still alive anyway  
Nothing to bring me down

Someday you're gonna die  
you'll see the light  
got soul like fire ignite  
learn to roll baby roll  
with the punches they throw  
and feel it all flow when i say

I don't care I'm still alive anyway  
Nothing to bring me down  
So guess what, guess I'm not going down  
guess what, I guess

this is the sound of a man when he hits the ground  
the swing that knocks you out on the very last round  
its a matter of style, a battle of smiles  
a bomb in my head, you blow me away

I don't care I'm still alive anyway  
Nothing to bring me down  
So guess what, guess I'm not going down  
guess what, I guess  
I already hit the ground.
