Help me  
See so I can find  
I'm trapped inside these  
Walls made of  
Glass that are stained  
This pain won't go away

Pick me up to tear me down again  
Push me out then offer me your hand  
This glass made of sand it tells the story  
It's coming 'round again, It's coming 'round again

Spin me  
Around to see the light  
The sun won't shine here  
Anymore; See why  
I'm so dark inside  
I've read between the lines

Pick me up to tear me down again  
Push me out then offer me your hand  
This glass made of sand it tells the story  
It's coming 'round again, It's coming 'round again
