Inside...

There's someone inside!

There's something inside!

That I cannot hide!

There's a warm inside of me!

There's things I despise!

It wants me to die!

I cannot hide...

From the things I do at night!

It cries

Inside!

It brings me up when I go to sleep!

This need to feed

On the waste of me as I lie here!

I think I'll be a much better person,

If I could just get a sleep a wink!

Why do you keep me up at night?

God damn, I just want to go to sleep!

I'd come back a saint,

If I knew it would make endings...

This guilt machine,

It wants me up and haunts my dreams!

It lives, it breathes,

It feeds upon my self esteem...

You have to forget to go to bed at night...

(lies)

There's things I despise,

(inside)

It wants me to die,

(from it's lies)

I cannot hide

(it's lies)
From the things I do at night...
It cries
Inside!
It brings me up when I go to sleep!
This need to feed
On the waste of me as I lie here!
I think I'll be a much better person,
If I could just get a sleep a wink!
Why do you keep me up at night?
God damn, I just want to go to sleep!
I'd come back a saint,
If I knew it would make endings...
