[Frank Griffin]

And we've got things so confused
I feel neglected and abused
Man, you've got me so confused
Cause I'm so caught up in you
So I I've got London on my mind
Did you cry another time?
I've got London on my mind

[Enrique Iglesias]

Somebody's party in a London flat
You're where it's at and I know
You want to see me lose my mind
I'm tired of chasing after you
You said don't ever leave
I thought you'd never go
I wish I could just remember your name

[Usher]

It was November 4th
I last held your hand
It seemed our time would last forever
Through the satellites, I fight with you
That local brew is spillin'
I know just how you spend your time
I want to get my hands on him

[Chorus]

She's a capital city girl
The residue is jealous
She's a capital city girl
See me on the dark side of your mind
She's a capital city girl
She's a capital city girl
I want to get my hands on her
She's a capital city girl
To a club that's pounding in the London rain
She's a capital city girl
The world could end we wouldn't hear it
She's a capital city girl
See me on the dark side of your mind

She's a capital city girl
I want to get my hands on him
She's a capital city girl
She's a capital city girl

[Frank Griffin]
Did you look so satisfied?
When I wake up in the sunlight
And look into your eyes
And I hold you for a little while
and I see behind your smile
I remember how beautiful I used to think you are
Now the only love that meant something is gone

[Enrique Iglesias]
The worst is being alone
Sometimes I wish I could have taken your place my love
You know I don't want to live forever
Oh, London
Where the clouds never go away
I keep my coat on from September to May
When the tulips will bloom in the most unusual way

[Usher]
You're just a memory now
Like all the ones before
But with your pain I've had to suffer
Your eyes alight with flame
As the picture burns
I hear the screams from long ago
Oh there's some things in life I could never face

[Chorus]
She's a capital city girl
The residue is jealous
She's a capital city girl
See me on the dark side of your mind
She's a capital city girl
She's a capital city girl
I want to get my hands on her
She's a capital city girl
To a club that's pounding in the London rain
She's a capital city girl
The world could end we wouldn't hear it
She's a capital city girl
See me on the dark side of your mind
She's a capital city girl
I want to get my hands on him
She's a capital city girl
She's a capital city girl

[Frank Griffin]

You were never there for me
I thought I was stronger

[Enrique Iglesias]

I still hold onto the memory of how we were meant to
be
And I wonder did you ever care

[Usher]

But then why am I here when there's nothing left to say
Now the only love that meant something is
gone.....

[Chorus]

She's a capital city girl
The residue is jealous
She's a capital city girl
See me on the dark side of your mind
She's a capital city girl
She's a capital city girl
I want to get my hands on her
She's a capital city girl
To a club that's pounding in the London rain
She's a capital city girl
The world could end we wouldn't hear it
She's a capital city girl
See me on the dark side of your mind
She's a capital city girl
I want to get my hands on him
She's a capital city girl
She's a capital city girl

She's a capital city girl
She's a capital city girl.....
The residue is jea-a-a-a-a-a-alous
