[Ne-Yo]

She's got me walkin, talkin, drinkn, sleepin
Can't sleep at night until the early morning is rising
Wonderin if she's dead or gone
If she's dead with a next man or feelin alone
Flesh licker girl straight out of a magazine
Long brown hair and a nice big smile
And my heart said snow you better give it a try

[Chorus]

Sexy girl, I'll never find another
She's my sexy girl that I like
Something in her eyes said snow you must knock up
Me I'm feelin' lonely and free
If love is so blind then why can I see
You were everything that I thought would be a lady
Personality and a class that match

[Ne-Yo]

One day me and her went to the disco
Watch how the girl danced
Now watch the girl pon east and the girl pon left
You dance too much you dance to death
And now you no do it right if you no work up a sweat
But still have to watch to see another
And my heart said snow you better give it a try

[Chorus]

Sexy girl, I'll never find another
She's my sexy girl that I like
Something in her eyes said snow you must knock up
Me I'm feelin' lonely and free
If love is so blind then why can I see
You were everything that I thought would be a lady
Personality and a class that match

[Ne-Yo]

Watch me mack with eye contact
Watch her become my slave
Baby girl it's me
Now tell me who is that girl

See her standin 'cross the way
I want that so don't talk back
Let's just be on our way

[Chorus]

Sexy girl, I'll never find another
She's my sexy girl that I like
Something in her eyes said now you must knock up
Me I'm feelin' lonely and free
If love is so blind then why can I see
You were everything that I thought would be a lady
Personality and a class that match

Sexy girl, I'll never find another
She's my sexy girl that I like
Something in her eyes said now you must knock up
Me I'm feelin' lonely and free
If love is so blind then why can I see
You were everything that I thought would be a lady
Personality and a class that match
