Ghuleh
Ghuleh

Ghuleh
Ghuleh

Putrefaction
A scent that cursed be, under cold dark dust

From the darkness
Rise a succubus
From the earthen rust

Hyiistea, once a majesty
Now exposing bone
From the darkness
Rise a succubus
And usurps the throne

The moon is full, and shines an evil blinding light
Under a monolithic likeness, marble white

Zombie Queen
Zombie Queen
Black light guides you!
Ghuleh
Ghuleh

And from the stinking pit she rises, ghastly pale
She is shifting soon... but now she's rigid, stiff and pale
