on a cold day in september  
she was born into this world  
with a smile on her face  
and a whole life ahead of her

i swear i'll never forget you

and now i don't want to grow up  
and now i don't wanna grow up alone

she reads just like a book at the age of thirteen  
and then by fourteen, the pages are torn  
sweet sixteen then just means long diary entries  
and at eighteen she's on her own

i swear i'll never forget you

and now i don't want to grow up  
and now i don't wanna grow up alone

she's scared to live  
and she's scared to breath  
it feels as if she's choking  
on oxyegn from her lungs

and now i don't want to grow up  
and now i don't wanna grow up alone

and thats when i said, i'm here for you  
and thats when i said, i'm here for you

...and thats when i said, i'm here for you  
and thats when i said, i'm here for you  
and thats when i said, i'm here for you  
and thats where i signed goodbye too
