50 Cent
"50's My Favorite"

I took a sip of the potion
Lil' SK, a little Goose, now I'm loose

[Verse 1 - 50 Cent]
Quest for the cheddar I bought shiny Beretta
I'm firing squad hard, you niggas should know better
Than to bump with Ferrari, calamari
I kill like rebels in Warri, I'm sorry
I ball like I think I'm the Prince of Abu Dhabi
Black gold gush out the ground
Gun powder fly out the pound
I turn a clown smile upside down
That's 3 time zones in my watch face
Still hard to tell time with diamonds all over my watch
face
Twinkle like I'm outta space, I'm a big dipper
You a little dipper, pipe down little nigga
Nice wheels, but don't talk money, that's what I'm about
I could fit your house inside my house
And your neighbours and ya yard, oh my God
This shit aint about shit so I aint gon' go hard
Now kick push, kick push... get the f-ck outta here
Kick push

[Hook]
You're now being hypnotised, close your eyes
And say 502s my favorite, fifty, fifty's my favorite
I'm not the the one to play with, I mean what I say bitch
502s my favorite, 50, 502s my favorite
Still on that gutta shit, forever on that gutta shit
502s my favorite, 50, 502s my favorite
I know you love that shit, real niggas be loving this
502s my favorite, 50, 502s my favorite

[Verse 2]
Oh shit now a nigga floatin'
That Luger German, that's Kush burning
I'm Einstein on the grind
My wheels turning, I'm out in cali not in Hollywood
Silicon valley, I'm bout to get rich
I mean real rich, I'm talking Facebook and Spotify type
shit

I'm not a programmer, I use ghetto grammar
Slang, I'm strong as David Banner
The Hulk, my money come in bulk
And if this shit go bad, I go back to the dope
And I pay attention to the murder I wrote
This my light shit, my heavy shit on the album
Lets get right bitch

[Hook]
