La la la, la la la la la la la  
Yeah, uh huh, I like how the way that feel

I'll build you, but if ever I fall down  
And I need you to pick me up  
Promise me, you'll be around  
Hold me down, I'll build you up

Listen, if you let me, I'll be the reason you shine  
It's the secret, I want the world to know that you're mine  
But on some real shit, communications could be better  
So I'm writing this song instead of a love letter

They gon' play it on the radio a hundred times a day  
I figure when you hear it you gon' stop and think of me  
I wanna get to know you and be the reason you smile  
Girl you know where I'm from, you know how I get down

When times get tough, tell me that I'm special  
Not rap, I mean me, that I'm special  
You know they say diamonds are a girl's best friend  
Precious stones, could you put me before them?

If so, I'll see to it they always around  
Nothing but the best, now how does that sound?  
If I drop a jewel when we talk you can keep it  
Girl you on my mind all the time, that's a secret

Baby I build you up  
Girl, if I, never show, I'd have you by my side  
Oh yeah, I'd build you up  
Girl I, need to know for sure you're mine

I need to know for sure, right now  
Girl, if I, never show, I'd have you by my side  
I'd build you up  
Girl I, need to know for sure you're mine

I thinkin' 'bout you thinkin' that you feel the same way  
Or is it just my imagination that get runnin' away?  
If you ready to ride, girl, c'mon, let's roll  
G-5-5 fly, ma, let's go

It's hard to measure the pleasure of havin' you in my  
presence  
Your smile makes me smile, I'll show you my style  
You can shop a little bit, I'll pick out some shit  
One pair at a time 'til your shoe game sick

Now who knows what the future holds, we'll be together  
probably  
For, better or worse, like Whitney & Bobby  
If you wanna play house, we can play house then  
But wait, why pretend when you can move in?

Before I be your buddy in bed let me be your best  
friend  
Girl, it's more than lust, I want your trust  
You keep it real with me, I keep it real with you  
'Cuz I know wit' you by my side there's nothing I can't  
do, yeah

Baby I build you up  
Girl, if I, never show, I'd have you by my side  
I'd build you up  
Girl I, need to know for sure you're mine

I need to know for sure, right now  
Girl, if I, never show, I'd have you by my side  
I'd build you up  
Girl I, need to know for sure you're mine  
I'm gon' build you up baby

La la la, la la la la la la la  
La la la, la la la la la la la  
La la la, la la la la la la la  
...
