[50 Cent]

50 cent Mary J Blige

G-unit

Baby let's shine where we can shine

And ball where we can ball

Cherish our times together

We not promised tomorrow

Know the deferens between love and lust

Lusting for you love (?) feel your touch

baby im grown im not going through a phase

Let's talk the touch can be brains in both ways

Now can you tell me what's a king without a queen?

Im using metaphors

What's me without you is what I mean

[Mary J Blige]

In the middle of the night you hold me tight

Said it's alright I'm yours forever

I do what you want if you don't hurt me

I'll cook and clean I'll make you happy

[Chorus] ooh what you do to me

Ooh you're my everything

Ooh I'm so glad I found you

Ooh I can't live without you

Got a Jones in my bones and it's all for you babe

Can't leave you alone I'm so addicted

I can't stectified it's the sweetest thang

So who's your girl you better say my name

[Lloyd Banks]

Uh

It feels like I made it to heaven when im beside her

And we aint gotta keep no secrets cuz she's a ridah

She's got a hold on the kid that's tighter than (?)

And I got a hidden note that's higher then Mariah's

Maybe im jumpin the gun and maybe im crazy

Maybe she's moving to fast maybe im lazy

She's kind of different you know
Her body shape make ya wanna take a trip in the snow
(no)

[Young Buck]

My thug love got her the way I put it down
Got you calling on my phone when ya man not around
Shorty I know what you like
We don't have to fight you ain't gotta be trippin
You know im coming home tonight
Try to warn ya by the player cuz he aint wanna listen til
I got ya in the bedroom huggin and kissin'
I got what you missin put you in a position
Had you hollering and screaming talking bout how I did
ya
Come on baby

[Mary J Blige]

[Chorus]
ooh what you do to me (oohh oohh what you do to me
baby baby baby babe)
ooh you're my everything (your me every everything
yeaheehhh
ooh i'm so glad i found you (Im so glad I found you
yeah)
ooh i can't live without you

[Bridge]
What you do to me it's just a mystery (what you do to
me) (yeah yeah)
It's hard to believe that you are here with me (oohhoo)
Making all my dreams a sweet reality (making all my
dreams sweet reality)
All my life I tried to find what's best for me

Repeat Chorus
