

50 Cent "Wish Me Luck"

Visit "[Wish Me Luck](#)" on MotoLyrics.com

I got everything on the line,
I'm right here on the ground, trying to get it right
At least you could wish me luck
You can move the way, trying to get the day, I'm in
another...
At least you could wish me luck
... it's, I'm moving but I'm stray
At least you could wish me luck
I took... , me I'm your wishing man
At least you could wish me luck
To win and make a streak, it's hard to turn a snake
... than I'm straight, at least you could wish me luck

But these ain't that good, these niggers is...
They tell him what's going on that's how they know
what's happening
I'm riding with the top down, trunk full of...
Get a pharmaceutical, I move that Coca-Cola
Thousand... I fuck with the weirdos
It's not a way to pain thing they doping their vein
Sure they're fine, Christmas ain't coming this pop's
locked up
When they heard the worst, aces lost knocked up
Warfare an option, the feds come knocking
It's all fucked up, so wish me luck
At least you could wish me luck

You can move the way, trying to get the day, I'm in
another...
At least you could wish me luck
... it's, I'm moving but I'm stray
At least you could wish me luck
I took... , me I'm your wishing man
At least you could wish me luck
To win and make a streak, it's hard to turn a snake
... than I'm straight, at least you could wish me luck

Hustling down the veteran, trust me I'm a gentleman
Niggers get to talking about me
Harder than this ever been, imagine what they're
telling them
When they get to stitching you, see

I'm cut from a difficult, I get you to let it go
Before they testify I'll be, right where I need to be
... cheer in me, in the barrow and 3d

I got everything on the line,
I'm right here on the ground, trying to get it right
At least you could wish me luck
You can move the way, trying to get the day, I'm in
another...
At least you could wish me luck
It's, I'm moving but I'm stray
At least you could wish me luck
I took... , me I'm your wishing man
At least you could wish me luck
To win and make a streak, it's hard to turn a snake
... than I'm straight, at least you could wish me luck

I stash for rainy days, where... right away,... feel
... Lord have mercy on me
Me I've seen brighter days, telling you right away
There is a place for me?
My Lord just said I'm safe, we just beat the case
The verdict then we'll see

I got everything on the line,
I'm right here on the ground, trying to get it right
At least you could wish me luck
You can move the way, trying to get the day, I'm in
another...
At least you could wish me luck
It's, I'm moving but I'm stray
At least you could wish me luck
I took... , me I'm your wishing man
At least you could wish me luck
To win and make a streak, it's hard to turn a snake
... than I'm straight, at least you could wish me luck
You could wish me luck, wish me luck
It's hard on hell so please wish me luck
All we been through, wish me luck
Please wish me luck, wish me luck.
