[Chorus]

The place where you wanna be.
The place you always dreamed of.
The place that you wanna see.
The place that you hoped of.
Is right here. Is right here.
We call it wonderland. We call it wonderland.
Come see me. Don't leave me. Now.

(We call it wonderland)

[Verse 1]

Send me to Japan to see my buddy Cesar.
Imma' be ya' leader like Julius Cesus.
Tryin' too hard, just to please ha'
Anything I want is here, swipe the visa.
Pull up to the crib like you about to leaser.
When the beat drop, guaranteed you'll have a seizer.
Why you gotta hate me, would debate with me.
When you on my level, would you - Kuwait with me.

(This is wonderland)

[Verse 2]

What I gotta do, why you gotta do it to?
Start of your career at the sight of my queue.
Get your act together, acting like you're from a zoo.
I'm the king here, no one needs your point of view.
Get back to work, order #2.
Even when I'm dead, you'll still be #2
Owe me all your credit, make sure you pay the due
Stick to your job, don't make me get my crew.
Coming after me, should be your last choice.
You're talking to the king, watch your tone of voice.
Hear what I'm sayin'?
This beat, I'll be slayin'
The debt you'll be payin'
Me, you obeyin'

When I arrive, you better be prayin'
When I arrive, you better be prayin'

[Chorus]

The place where you wanna be.
The place you always dreamed of.
The place that you wanna see.
The place that you hoped of.
Is right here. Is right here.
