This is the only place I feel at home,
My heart lies far away from this place,
Nobody understands what this means to me,
Aside from this,
I have nothing to chase.

I find it so hard to find light (to find light),
Things used to make sense,
Now I blame every thing around me.

Nothing can cure this disease,
The hunger for a dream just out of reach,
Nothing will ever break this bond,
To me, this is my family.

Nothing can cure this disease,
The hunger for a dream just out of reach,
Nothing will ever break this bond,
To me, this is my family.

Nothing can cure this disease,
The hunger for a dream just out of,
Nothing will ever break this bond,
This is my family.

Nothing can cure this disease,
The hunger for a dream just out of,
Nothing will ever break this bond,
This is my family.

This is where I belong,
Where I am what I am,
The only time anything makes sense,
This is all I have.

This is where I belong,
Where I am what I am,
The only time anything makes sense,
This is all I have.

This is all that can save me,

From another day of waiting,
For something to happen,
Only to find nothing.

This is all that can save me,
From another day of waiting,
For something to happen,
Only to find nothing.

Never give in,
Never look back,
We made it this far alone.
All the problems meant nothing,
This is all we know.

Never give in,
Never look back,
We made it this far alone,
All the problems meant nothing,
This is all we know.

This is all we have,
This is all we have.
This is all we have,
This is all we have.

This is my family.
