### "Bad Luck"

Visit "[Bad Luck](#)" on MotoLyrics.com

I kissed my mother, I kissed my friends, I told my brother not coming home again and I said might not be lucky even though I have tried bad luck got in me but I will survive (come one in)

I was born with a thorn in my soul sometimes it hurts might not got much but I know what its worth and I said might not be lucky even thought I have tried bad luck got in me but I will survive (aw yeah)

Well I was born with a thorn in my soul guess it couldn't be worse might not got much but I know what its worth might not be lucky even thought I know I have tried bad luck got in me so I will survive

I kissed my mother, I kissed my friends, I told my brother John not coming home again and I said might not be lucky even though I have tried bad luck got in me but I will survive and I said bad luck got in me but I will survive I said bad luck got in me but I will survive.
