It's about time to wake up wake up  
I've been way too much of a giver not a taker taker  
I've been so confused fused for a minute minute  
DJ put my world on, you gonna spin it spin it

So I can dust it off now, rub it off now  
Cause the people here are crazy  
And there's no one else to save me  
So buzz this off now, above this all now  
Cause the people here are crazy  
And there's no one else to save me

Done with this part, now I know where to go  
Follow the lead in my heart and my soul  
I'm gonna show, I'm gonna show  
I'm gonna show, I'm gonna show

I don't wanna be waiting  
I don't wanna wait the rest of my life  
So now I'm changing  
My life is feeling so divine  
That's why I raise my glass  
Like it's the first time  
That's why I take this shot  
Like it's the first time  
And now I'm changing  
My life is feeling so divine

My decision, my religion ligion  
My point of view, my opinion pinion  
Like a game of poker, I be winning winning  
It's my time now, I'm gonna get it get it

Gonna dust it off now, rub it off now  
Cause the people here are crazy  
And there's no one else to save me  
So buzz this off now, above this all now  
Cause the people here are crazy  
And there's no one else to save me

Done with this part, now I know where to go

Follow the lead in my heart and my soul  
I'm gonna show, I'm gonna show  
I'm gonna show, I'm gonna show

I don't wanna be waiting  
I don't wanna wait the rest of my life  
So now I'm changing  
My life is feeling so divine  
That's why I raise my glass  
Like it's the first time  
That's why I take this shot  
Like it's the first time  
And now I'm changing  
My life is feeling so divine

I'd rather be alone when I wake up  
Than give it all away for a break up  
I'm so, so, I'm so, so

Not waiting  
I don't wanna wait the rest of my life  
So now I'm changing  
My life is feeling so divine  
That's why I raise my glass  
Like it's the first time  
That's why I take this shot  
Like it's the first time  
And now I'm changing  
My life is feeling so divine
