

As Friends Rust "Could Be Talkin'"

Visit "[Could Be Talkin'](#)" on MotoLyrics.com

Get up on your feet now darlin, what's that sound?
The word is whisper sweet now darlin, turn around...

Could be talkin' about a friend of mine
Could be knocking on your door this time

Try to count the stars now honey like Abraham
You might not be too far now from that promise land

Could be talkin' about a friend of mine
Could be knocking on your door this time

You could be talkin' about a friend of mine...

This is the answer to my prayer
One day we'll meet Him in the air

So get up off your seat now darlin, don't be slow
Are you feeling more complete now darlin?
You should know...

Could be talkin' about a friend of mine
Could be knocking on your door this time
