"Wolves Within The Woods"

There's wolves within the woods, my love
There's wolves within the woods, my love
And creatures in the dark
With evil in their hearts
There's wolves within the woods, my love

There's wolves within the woods, my love
There's wolves within the woods, my love
And shadows on the road
That hide the pathways home
There's wolves within the woods, my love

Oh, hurry home
Spread your wings like fire and go
There's another lost in the night
To my lover lost
Hold on tight

There's rain upon the wind, my love
There's rain upon the wind, my love
It falls as hard as stone
Spreads winter through your bones
There's rain upon the wind, my love

There's voices in your head, my love
There's voices in your head, my love
Over the sun they'll cloud
And seed your mind with doubt
There's voices in your head, my love

Oh, hurry home
Cross the breeze like heat through stone
There's another lost in the night
To my lover lost
Hold on tight
