I will never let you go  
I know you want it, know you want it  
Learning love means not to know  
I'll learn to take it, learn to take it  
Love

I will never leave your fears  
I know you're lost now, know you're lost now  
Counting days won't buy us years  
Let's start it over, start it over  
Love

People never smile to say good-bye  
Leaving means there's nothing left to try  
But I broke my wings for you  
I smiled as you untied our love for good  
Love
