1.

You are a gangster,
Who breaks my heart,
You occupy my everything.
I don't need your fun,
Am I just a joke for you?
Go get another girl.
I've given thousands of reasons
Why we shouldn't be together
But one thing I know, you don't care.
You knock on my door again, and again!

(Chorus)

Suddenly, you're with me tonight.
Suddenly, you say I love you.
Suddenly, all my strength is gone.
Suddenly, I'm all yours.

2.

You were a boy.
And I was such a lady, with no time
for a mere child.
You said hey girl.
I looked around, said "Who's there?"
I was an arrogant princess
You were not like other guys who were
Coming and going easily
You were daily oxygen
And turned into a man for me, for me!

(chorus)

(br)

It's a destiny, we cannot escape..
Pride kneels down before this love!
We tug and tow; and go crazy and laugh; and.
Can't help but long for each other every day!

(chorus)
