"Dark Impulses"

Look at America
A sea of violence and bloodshed
We blame it on the climbing morality, television,
movies
You know what?
We're right, but for all the wrong reasons
We need to offer
A real outlet for those dark impulses

Television tries and pretends to understand
But...
Like that, that pretty girl that only wants to hold hands
It's nice
But face facts
We just wanna fuck!

We need to offer
A real outlet for those dark impulses
Dark impulses [?x]

Dark impulses

We need to offer
A real outlet for those dark impulses
Dark impulses [?x]

Dark impulses [2x]

We need to offer
A real outlet for those dark impulses
