"When The Love"

She stands alone
Nothing to hide from the cold
Watching patiently
As the scene begins to unfold
Has it come to this
As the tears flow from her eyes
Touching fingertips
As they kiss and say goodbye

When the love's not workin'
And your heart is burnin'
Should you break away
Just run or stay

When the love's not workin'
And your heart is hurtin'
Should you shut your eyes
And let him play

Now there's no returnin'
Will they ever learnin'
Should you break away
Just run or stay

When your heart is hurtin'
And your love is burnin'
Should you shut your eyes
And let him play

She hurries home
So he finds her waiting there
She tries her on
Slowly brushes her hair
When he comes around
Does she give him time to explain
Could you leave him now
And she never see him again

(Hold on...)

When the love's not workin'

And your heart is burnin'
Should you break away
Just run or stay

When the love's not workin'
And your heart is hurtin'
Should you shut your eyes
And let him play

When the love's not workin'
And your heart is burnin'
Should you break away
Just run or stay

When the love's not workin'
And your heart is hurtin'
Should you shut your eyes
And let him play

Now there's no returnin'
Will they ever learnin'
Should you break away
Just run or stay

When your heart is hurtin'
And your love is burnin'
Should you shut your eyes
And let him play
