It was good to be young
At heart at last
Tunnel vision tied you to the mast
You harbor ill feelings from the past
It was good to be young

Now it's cool to be kind
Of had a laugh
About a half a million famed autographs
I'm one of your dedicated staff
Now it's cool to be kind

There came an anvil from the sky

Back when I didn't understand
Looked me in the eye
Then it took my hand
Now it's cool to be kind

It was good to be young
At heart at last
Tunnel vision tied you to the mast
You harbor ill feelings from the past
It was good to be young

It was good to be kind
