

## 50 Cent Haircut "Fiction"

Sun sets on television  
Tele-tubbies say goodbye  
I wave. I wonder why

Odd twist the gray brain matter  
Grows fatter than girls at the 'Y'  
I slave over my alibi

Because I believe in fiction, fiction  
The only thing that turns you on is fiction  
The only thing that turns me on is fiction  
I kiss the ground you walk on  
I kiss you to disguise  
My face identifies

Because I believe in fiction, fiction  
The only thing that turns you on is fiction  
The only thing that turns me on is fiction
