In the quiet life of a frogman
The snowman doesn't have any knees
Underneath the world that he left behind
He's afraid he's going to catch the disease

And he never has anyone over
These creatures are unknown to his wife
Never was the last time he changed his mind
He's just dreaming of a life in the movies
Here we go Geronimo, Geronimo
They love it G-E-R-O-N-I-M-O

On the days he thinks that he's Jesus

He allows himself to do as he pleases
Wags his middle finger at the things that go wrong
Lays a blessing on himself when he sneezes

And he never has anyone over
These creatures are unknown to his wife
Never was the last time he changed his mind
He's just dreaming of a life in the movies
Here we go Geronimo, Geronimo
They love it G-E-R-O-N-I-M-O
