

50 Cent Haircut "Matchbox"

Visit "[Matchbox](#)" on MotoLyrics.com

The lake was formed
They built houses stood there still
They stood so close to the sun
I've powerless will

Now the lake is on fire
And everyone's praying for rain

Matchbox
I've got a head full of rocks
And I need a doctor
Do it do it do it don't do it again

I'm going down to the river
With my pockets so full of weight

Down to the river
If it's isn't already too late
The sky is on fire
And everyone's saying my name

Matchbox
I've got a head full of rocks
And I need a doctor
Do it do it do it don't do it again

I had no life before you baby
What did I do baby
I had no life before you
