What's up its PEPPPALOTTI!  
I'm baack!  
Bitches!!!!!!!!!!  
What's up Mike Wilson  
J Y Alumni I'm not high!  
FBI ( is in the building)  
FatBoyInc  
Let's Get It!  
Its my turn I'm next now so make room  
And guess what I'm not wet now I can't lose  
And I can't prove who talk down but FUCK YOU!  
Mutherfucker I'm made like rubber and you're Glue!  
And if anyone jacks for another I won't sue  
But I'll buy a gun and pay me someone that will shoot  
The bullshit that went on in the past was real cute  
Things you think of me incapable of I will do  
Its cool to see me paper huh love I look good  
And my family got Crips in they Blood we all hood  
It be a better world if we stood together we all should  
And everyone can have cash forever we all could  
Exceed and over achieve in our dreams like Barrak  
And not get shot end up missing out like Tupac  
And I'm not gonna stand in one place to figure out  
Why we're here and what is that life is all about  
HappYness I'm in pursuit if Gods willing  
If its out there I'ma find out what to do with it  
It don't matter where its at how it come or who give it  
Its your life and your choice alone how you live it  
Pursuit of happYness  
Not gon't worry worry bout shit!  
I'ma enjoy my life my life!  
Handle my business!  
My complexions reflections clearer in the mirror  
But I'm fat and still a nigga and that's that so go figure  
Mike bleached it permed it & no surgeon couldn't  
change it  
But he was famous worshiped confined to his  
derangement  
Unhappy considered the ultimate in entertainment  
His character crucified and he never overcame it  
Most think mountains of money u'll mak'em happy

If they get it they become reckless with it and uncanny  
Discover that they can't trust friends and fuck family  
How could they know that they friends & they folks was  
so ghastly  
If you never heard that word before it means nasty  
Like those that pray that 1 day you cease to breathe or  
bleed badly  
To be happy having pleasure good fortune and full of  
joy!  
To love what you do and the habits that you employ  
Every since I was a boy to the man that I am now  
I try to find the bright side by holding the clouds down  
HappyNess I'm in pursuit if Gods willing  
If I can't find it ain't nothing to do but keep living  
Can't worry bout what others u'll do they keep tripping  
If you finally find something for you its a sweet feeling  
Pursuit of happyNess  
Not gon't worry worry bout shit!  
I'ma enjoy my life my life!  
Handle my business!  
I'm happy whenever my son call me Daddy  
And when I hug him and he hug me back it always have  
me  
Fighting back tears of joy because I love him  
And whenever we not together I'm thinking of him  
Me and his Mother we argue and fuss and that's us  
And we break up just to make up then we fuck  
And I'ma grind it out and always provide for my team  
And do anything to see that we live out our dreams  
And this Rap thing is vital as the air that I breathe  
I know that anything can happen if I dare to believe  
The top spot is there and I'm prepared to receive  
Anything that God has intended for me  
Momma I'ma make you proud just wait and u'll see  
And when I make you smile I'll be as happy can be  
The backbone of the family when I finally unearth the  
true man in me  
Living Happily!  
HappyNess I'm right on its ass I gotta have it!  
Its out there gotta reach for the stars just to grab it  
Be patient refrain from the things that's barbaric!  
When you have it you'll know in your heart its like magic  
HappyNess
