English translation

I want to protect the big dream I had with you more
than anything.
I want to be by your side forever and ever.
I sparkle to you, my love...Overlapping these memories,
one by one,

The tomorrow we wish for is coming.
My memories are swaying in the brightness of that day.
My entire body overflows with love.
Overcoming the winter, waiting for the spring when the
buds open up.
The sun of summer, the love of autumn,
hold my hand.I brought along my feelings that will
not change, and walked down this path.
I'll sparkle more and more. Just like crystal...
I want to protect the certain time I have with you more
than anything.
Be by my side forever and ever,
OK? This continues to you,
my love...Inside the crowd of so many people that I
couldn't count,
The fact that we met being fate is the truth
Because me being myself, and you being yourself will
surely
Be born here and grow from there.
You have to be there, or it won't start. It has to be you,
or it won't end.
Let's swear to the brightly shining sun.
I'll sing forever, because the joy that supports me
Is softly, softly, echoing in my heart. Just like an orgol...

I want to protect the big dream I had with you more
than anything.
I want to be by your side forever and ever.
I sparkle to you, my love.
..I brought along my feelings that will not change,
and walked down this path.
I'll sparkle more and more. Just like crystal...
The big dream I had with you will continue for eternity,
so
Let's stay together forever and ever. This continues to
you, my love...
