Goodnight moon, goodnight stars  
Goodnight old, broke down cars  
Gone away, leaving soon  
Goodnight darling, goodnight moon  
I don't know where I've been  
I don't know if I've seen  
Out the window of my room  
Goodnight darling, goodnight moon  
, I'm gonna miss you  
When the night comes 'round  
That's when I'm gonna kiss you  
With the moon shining down  
Goodnight moon, goodnight stars  
Goodnight old, broke down cars  
I've gone away, leaving soon  
Goodnight darling, goodnight moon  
Goodnight moon, goodnight stars  
Goodnight old, broke down cars  
I've gone away, leaving soon  
Goodnight darling, goodnight moon.
