I've been waiting here for you so long,  
But you turned your back like that.  
I'll never understand why you did that to me, oh no ..

We both went our separate ways,  
I've got nothing left to say,  
I've got nothing left to say,  
I've got nothing left to say!!

Everything that I wanted to have,  
It was taken away, not by you though.  
And if you were here right now,  
I'm sure you'd feel the same,  
I have got nothing left to say.

Nothing left to say,  
Why does it have to be like this anyway?  
And all the things that I've learned,  
I don't understand why it's left me here with nothing  
left to say.

My heart fills up with pain,  
All this anger is making me feel insane.  
And all the things that I've learned,  
I don't understand why its left me here with nothing left  
to ..

Nothing left to say,  
Why does it have to be like this anyway?  
And all the things that I've learned,  
I don't understand why it's left me here with nothing  
left to say.

I've been waiting here for you so long,  
But you turned your back like that.  
I'll never understand why you did that to me, oh no ..
